

How-to Connect a Brailiant to an iPad

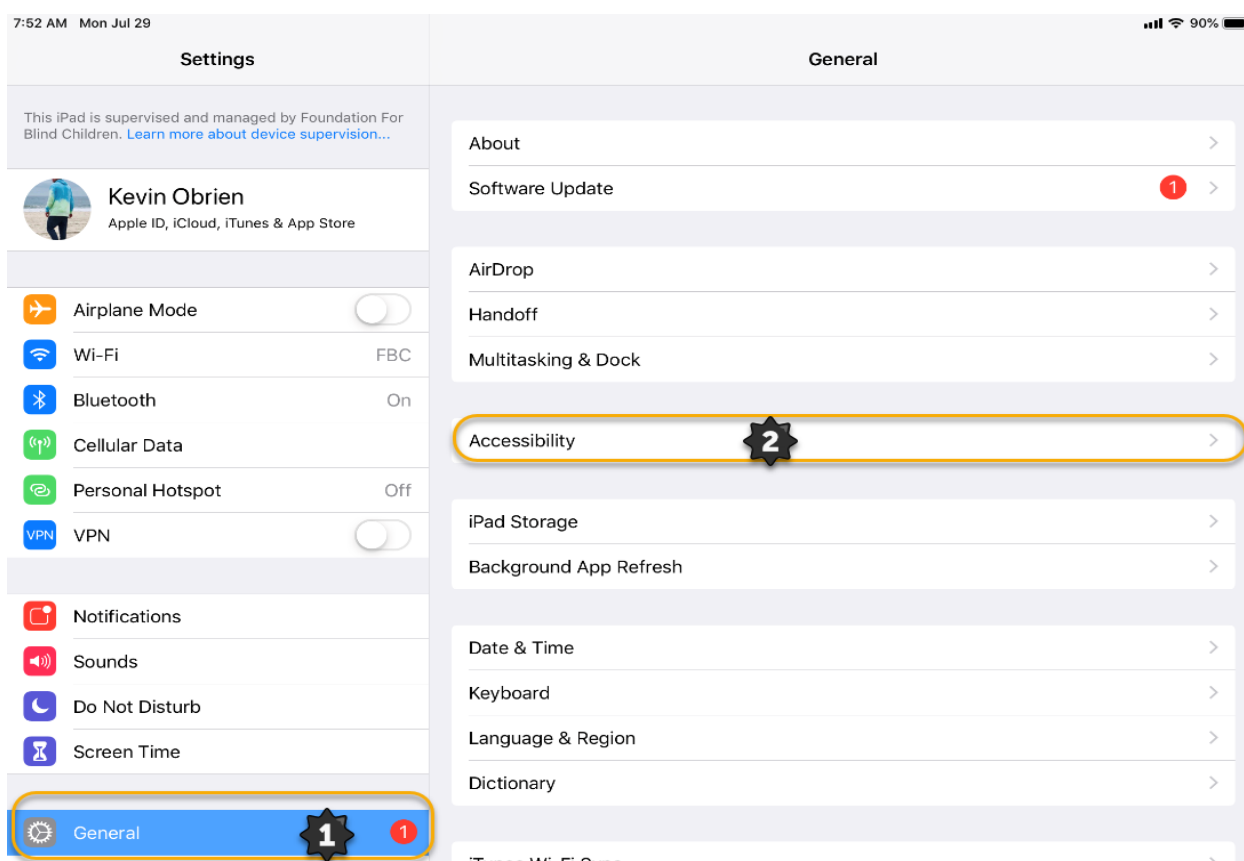

Turn on the Brailiant via the Power Button on the right side

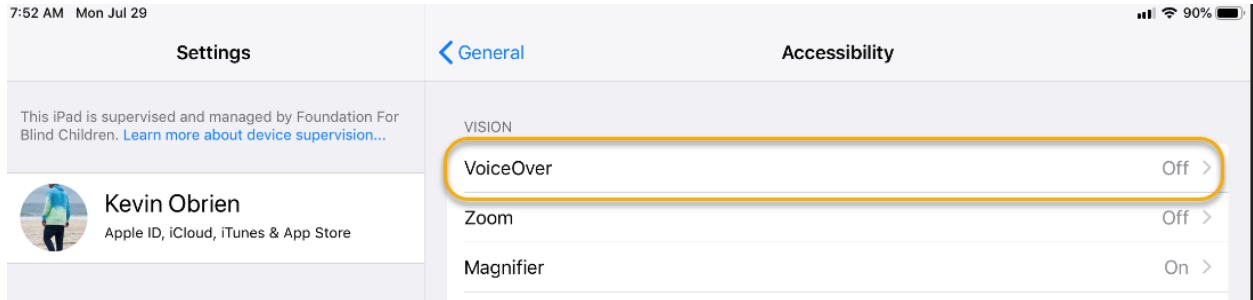

On iPad, Open Settings

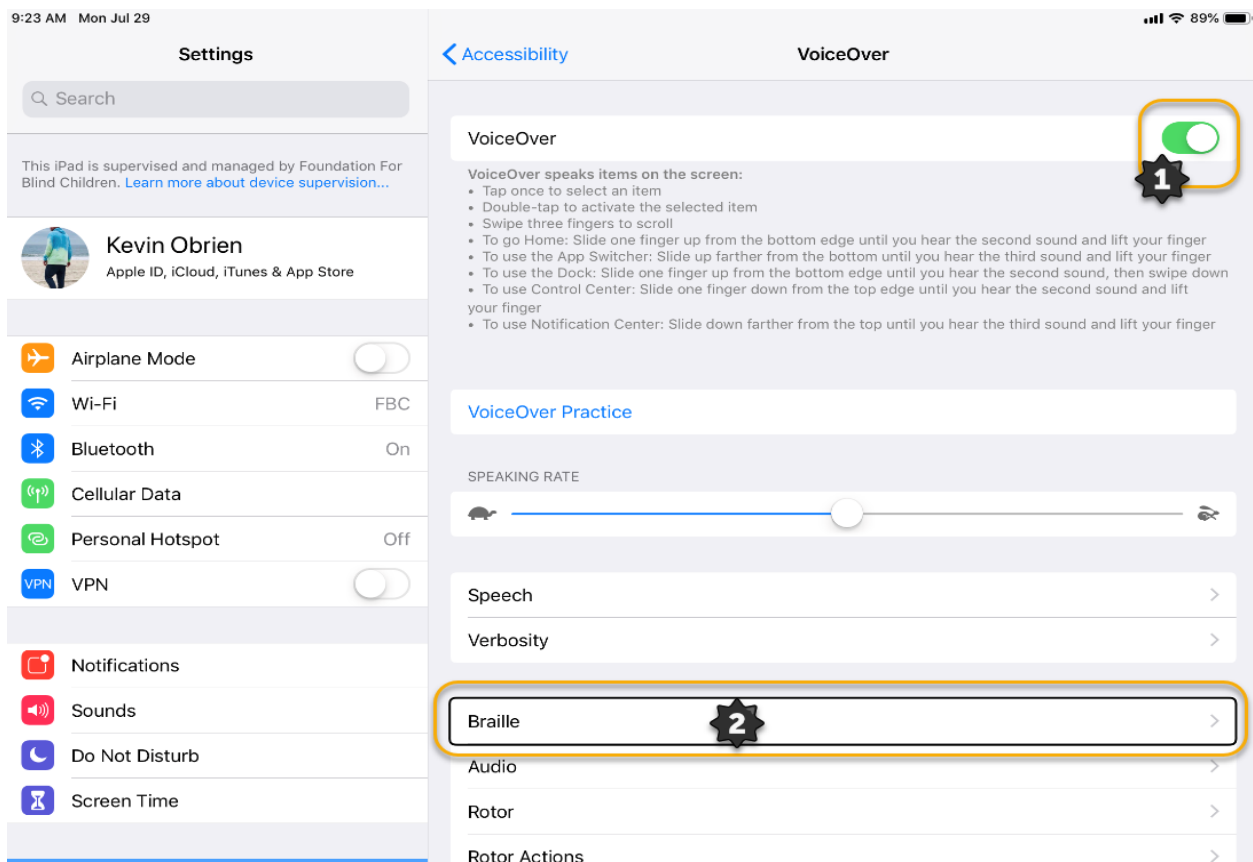

Click General → Accessibility

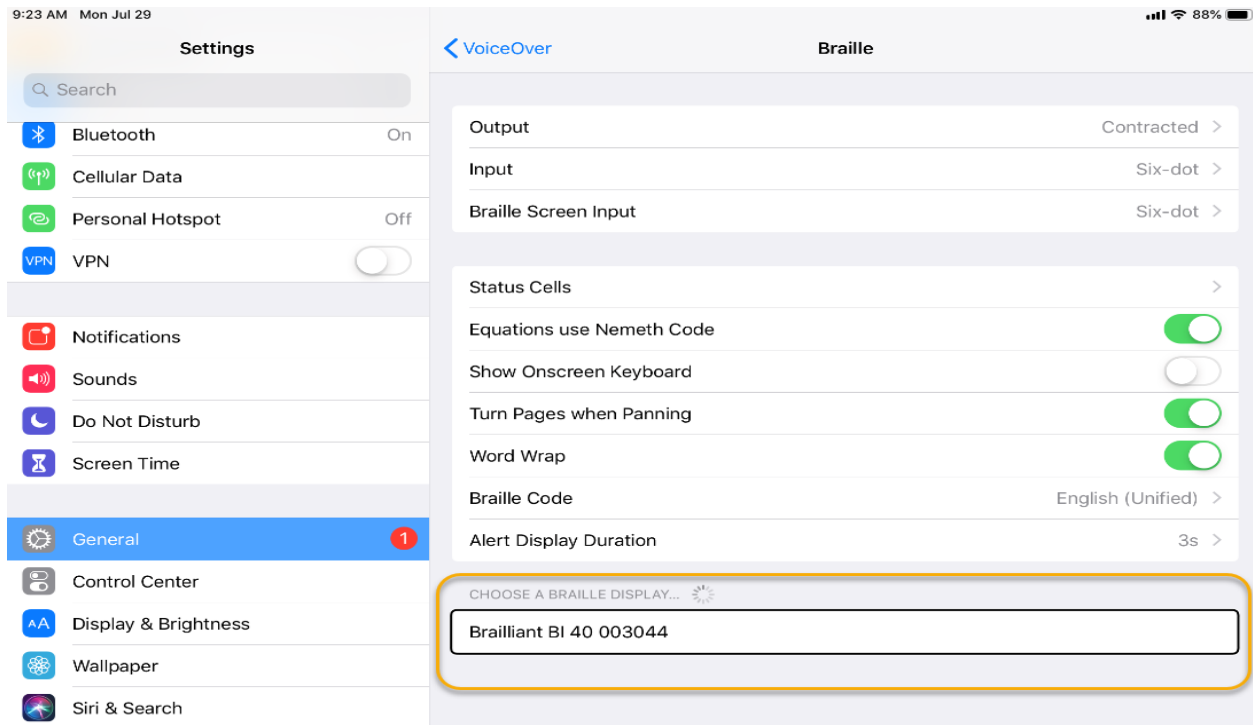

Click VoiceOver

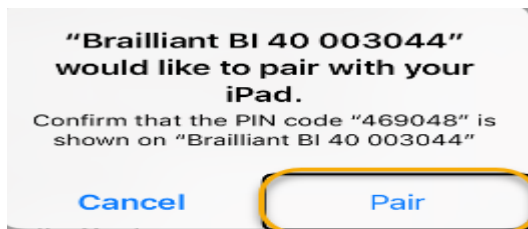

Turn on VoiceOver with the Toggle button, and then click Braille

Now choose your Braille display (Brailiant BI 40)

There will now be a popup to pair device, click Pair

You have now finished pairing your Braille display. Change your Output, Input, and Braille Screen input to preferred settings
